RESTRICTION RESPONSE AND PRELIMINARY AMENDMENT

ASSISTANT COMMISSIONER FOR PATENTS
WASHINGTON, D.C. 20231

SIR:

In response to the restriction requirement of January 17, 2002, Applicants elect, with traverse, the species corresponding to Group II. Claims 40-47 and 49-76 read on this species.

The proper criteria for restriction between distinct inventions is provided in MPEP §803. The two criterion are (1) the inventions must be independent or distinct as claimed and (2) there must be a *serious* burden on the examiner if restriction is not required. Regarding the second criterion, if the search and examination of an entire application can be made without a serious burden, the examiner *must* examine it on the merits, even though it includes claims to independent or distinct inventions (MPEP §803 (emphasis ours)).

The Office Action also has not addressed the issue of whether there is a serious search burden. The election cannot be maintained unless there is a serious burden. It has not been alleged that searching the species is any burden, let alone a serious burden, and there is no allegation or any proof of separate classification, separate status in the art, or different fields of search (MPEP §808.02). Moreover, using electronic searching, a search may be made of a large number of, or possibly all, classes and subclasses without any additional effort. Again,
